Cleveland Clinic

INTERNATIONAL & EMERGING MARKETS | ADVISORY OFFERING PROFILE

EHR & Clinical Systems Advisory

Expert guidance on EHR selection, implementation governance and optimization from a health system that runs these systems every day.

CATEGORY	TYPICAL DURATION	DELIVERY MODEL
Digital & Technology Advisory	8 to 16 weeks	Virtual, Hybrid, Workshop-based

01 CLIENT NEED

The EHR is the largest and most consequential technology decision a hospital makes. New hospitals need help evaluating vendors, defining the implementation team and designing workflows before build begins. Existing hospitals face low adoption, documentation burden and workflows that do not match how care is delivered. Requests typically come from the CMIO, CNO, CIO or COO, triggered by vendor selection, implementation planning or clinician dissatisfaction.

02 CLEVELAND CLINIC VALUE PROPOSITION

Cleveland Clinic brings clinical informatics leaders who design and optimize clinical systems in a high-volume academic medical center, and an activation model proven across major implementations. Clients gain practical insight into implementation governance, team structure and roles, EHR champion programs and service-line workflows, plus a sample workflow library and future-state use-case examples across service lines.

03 KEY DELIVERABLES

- Vendor evaluation criteria and scorecard (new hospitals)
- Implementation governance and team structure recommendations
- Workflow design guidance and sample future-state use cases
- EHR optimization assessment and prioritized recommendations (existing hospitals)

04 DELIVERY MODEL

Virtual / Hybrid / Workshop-based

Virtual best-practice sessions with Cleveland Clinic clinical informatics experts, review of the client's vendor evaluation, team design or workflow documents, and written recommendations. Optional in-person clinical informatics immersion at Cleveland Clinic.

05 TYPICAL DURATION

8 to 16 weeks

Phase 1 Best-practice sessions; Phase 2 Document review and recommendations; optional ongoing advisory through implementation.

06 RESOURCE REQUIREMENTS

CLEVELAND CLINIC TEAM

- International & Emerging Markets engagement lead
- Clinical informatics SME (physician and/or nursing)
- EHR application / implementation SME

CLIENT TEAM AND INPUTS

- Executive sponsor (CMIO, CIO or COO)
- Vendor proposals or current EHR configuration
- Clinical and operational workflow leads
- Local project coordinator

07 EXPECTED OUTCOMES

- Confident, well-governed EHR decisions
- Clear implementation team structure and roles
- Improved clinician workflows and reduced documentation burden
