SQPE Organizational Maturity Assessment

See where your organization stands on performance improvement, patient experience and safety culture, and how your view compares with Cleveland Clinic's.

CATEGORY	TYPICAL DURATION	DELIVERY MODEL
Clinical Advisory	[X to X] weeks	Hybrid

01 CLIENT NEED

Leaders often hold different views of how mature their organization is in performance improvement, patient experience and safety culture. Without a shared, structured scale, it is hard to agree on priorities or to track progress over time.

This offering is typically requested by executive and quality leaders preparing improvement strategies, or as part of the annual SQPE cycle of a Cleveland Clinic Connected membership.

02 CLEVELAND CLINIC VALUE PROPOSITION

Cleveland Clinic has developed maturity scales for Performance Improvement (PI), Patient Experience (PE) and High Reliability and Safety Culture that reflect how these capabilities develop in a high-performing health system.

The approach pairs the member's own self-assessment with an independent assessment by the Cleveland Clinic SQPE team, revealing gaps in perception as well as performance and giving leaders a clear, shared picture.

03 KEY DELIVERABLES

- PI maturity scale: member self-assessment and Cleveland Clinic assessment
- PE maturity scale: member self-assessment and Cleveland Clinic assessment
- HRO and Safety Culture maturity scale: member self-assessment and Cleveland Clinic assessment

- Comparison report highlighting gaps between the two assessments
- Prioritized recommendations to advance maturity

04 DELIVERY MODEL

Hybrid

Member leaders complete the self-assessment for each scale. The Cleveland Clinic SQPE team conducts its own assessment, then reviews the comparison with leadership and agrees on priorities.

05 TYPICAL DURATION

[X to X] weeks

Can be repeated annually to track progress, aligned with the annual SQPE assessment in the core program.

06 RESOURCE REQUIREMENTS

CLEVELAND CLINIC TEAM

- SQPE assessment lead
- PI, PE and high reliability subject matter experts

CLIENT TEAM AND INPUTS

- Executive sponsor
- Leaders and managers to complete the self-assessment
- Access to relevant data, policies and staff for validation

07 EXPECTED OUTCOMES

- A shared, evidence-based view of organizational maturity
- Alignment between leadership perception and independent assessment
- Clear priorities for advancing PI, PE and safety culture
- A baseline for measuring maturity gains year over year
