SQPE One-Pager Maturity Guide Library

Thirty-five concise Cleveland Clinic guides that show what mature practice looks like for key safety, quality, nursing and improvement topics.

CATEGORY	TYPICAL DURATION	DELIVERY MODEL
Clinical Advisory	Available throughout the membership term	Virtual

01 CLIENT NEED

Frontline leaders and improvement teams need clear, practical guidance on what mature practice looks like, but lengthy policies and manuals are hard to use day to day. Hospitals working on infection prevention, medication safety, nursing practice or management systems often need a quick reference to assess where they stand and what to do next.

Requests typically come from quality, infection prevention, nursing and operations leaders looking for practical tools to guide improvement on specific topics.

02 CLEVELAND CLINIC VALUE PROPOSITION

Each one-pager distills how Cleveland Clinic approaches a specific metric or process into a single page summarizing key practices and maturity levels.

The library spans clinical outcomes, infection prevention, medication safety, nursing practice, governance and the Cleveland Clinic Improvement Model (CCIM), giving members a consistent, easy-to-use set of guides tied directly to their SQPE priorities.

03 KEY DELIVERABLES

- Clinical outcome guides: CLABSI, CAUTI, C. diff, MRSA, mortality, sepsis mortality, falls prevention, hospital-acquired pressure injuries

- Medication safety guides: medication reconciliation, medication labeling safe practices, high-risk and look-alike/sound-alike medication safe practices
- Patient safety and infection prevention guides: safety event reporting, isolation practices, PPE, high-level disinfection, sterile processing, patient identification, Universal Protocol (Surgical Safety Checklist)
- Nursing and professional practice guides: nursing shared governance, nursing professional practice, plan of care visits, professional practice evaluation (peer review, OPPE, FPPE)
- Governance and readiness guides: safety and quality governance, accreditation and regulatory readiness, policy and document management
- Improvement and leadership guides: CCIM, visual management, daily tiered huddles, problem-solving, change management, leadership rounding, Kaizen boards, leader behaviors, leader-guided discussions, HEART Chats

04 DELIVERY MODEL

Virtual

Guides are provided digitally for member teams to use independently.

05 TYPICAL DURATION

Available throughout the membership term

Guides are used on demand and updated by Cleveland Clinic content owners as practices evolve.

06 RESOURCE REQUIREMENTS

CLEVELAND CLINIC TEAM

- SQPE content owners for each topic
- Cleveland Clinic Connected program team to distribute and update guides

CLIENT TEAM AND INPUTS

- Quality, nursing and operations leaders to apply the guides
- Unit and department managers
- Internal process to share guides with frontline teams

07 EXPECTED OUTCOMES

- A clear picture of mature practice for each topic
- Faster self-assessment against Cleveland Clinic practice

- Consistent improvement approaches across units
- Practical tools that support metric improvement in priority areas
