Cleveland Clinic

INTERNATIONAL & EMERGING MARKETS | ADVISORY PRODUCT PROFILE

Partnership, Affiliation & Transaction Advisory

Strategic and financial evaluation of partnerships, affiliations, joint ventures and transactions, including financial due diligence.

CATEGORY	TYPICAL DURATION	DELIVERY MODEL	PRODUCT OWNER
Finance Advisory: Plan Phase	6 to 12 weeks	Hybrid, Workshop-based	IEM Finance Advisory Connected & Advisory Services

01 CLIENT NEED

Health systems are increasingly approached with, or are actively pursuing, partnerships, affiliations, joint ventures and acquisitions. Their economics depend heavily on structure, contribution levels, governance and how returns are shared, and material risks are not always visible in summary materials. Leadership needs an objective view of what a proposed arrangement would cost, return and risk before committing capital, brand or clinical capacity.

The offering sits within the Plan phase of the Cleveland Clinic Healthcare Financial Advisory Lifecycle, which answers the client question "Can we do this?" It is typically requested by new market entrants and organizations pursuing growth through partnerships, affiliations or strategic transactions.

02 CLEVELAND CLINIC VALUE PROPOSITION

Cleveland Clinic evaluates partnerships, affiliations and investments from the perspective of a large operating health system, not only as an outside advisor. Our finance teams understand how clinical operations, staffing and service mix translate into the numbers that determine whether a transaction creates value.

Through its International & Emerging Markets work, Cleveland Clinic has supported health system development and partnerships across multiple regions, bringing practical insight into the structures, risks and assumptions that matter most to boards and investors.

03 KEY DELIVERABLES

- Partnership or affiliation business case combining strategic fit and financial implications
- Financial model of the proposed arrangement, with operating assumptions and partner economics
- Joint venture analysis comparing alternative structures under best, base and downside scenarios
- Financial due diligence findings, risk assessment and prioritized open diligence questions
- Workpaper summary documenting the risks and assumptions that drive the analysis
- Go or no-go recommendation and summary to inform negotiation
- Executive summary of findings and recommendations

04 DELIVERY MODEL

Hybrid / Workshop-based

The engagement opens with a virtual kickoff and a structured data request, followed by interviews with key stakeholders. Analysis and modeling are completed through regular virtual working sessions, with interim findings reviewed alongside the client team. It concludes with an executive readout of findings and recommendations, delivered on-site or virtually.

05 TYPICAL DURATION

6 to 12 weeks

Typically delivered in three phases: discovery and data collection; analysis and modeling; recommendations and executive readout. Partnership and affiliation evaluations typically run 6 to 10 weeks; joint venture analysis and due diligence support can extend to 12 weeks depending on transaction complexity. Cross-border or multi-party structures for governments and investors are scoped as a Premium International engagement.

06 RESOURCE REQUIREMENTS

07 EXPECTED OUTCOMES

- Clear, evidence-based go or no-go recommendation on the proposed partnership, affiliation or transaction
- Understanding of each partner's economics under alternative structures
- Material financial risks identified before commitments are made
- Negotiating position informed by scenario-tested financial analysis
- Documented operating assumptions to carry into negotiation and integration planning

- Investment decisions supported by validated, documented assumptions
