Cleveland Clinic

INTERNATIONAL & EMERGING MARKETS | ADVISORY PRODUCT PROFILE

Finance Transformation & Operating Model

Assessment and redesign of the finance function, from organization, processes and governance to shared services, the finance calendar and the chart of accounts.

CATEGORY	TYPICAL DURATION	DELIVERY MODEL	PRODUCT OWNER
Finance Advisory: Transform Phase	4 to 10 weeks per module; 8 to 20 weeks for a full transformation	On-site, Hybrid, Workshop-based	IEM Finance Advisory Connected & Advisory Services

01 CLIENT NEED

Finance functions built for a smaller or simpler organization often fall behind the enterprise they support in structure, skills and governance. Manual workflows slow the close, planning and reporting cycles; decision rights and policies are unclear; shared functions are duplicated across entities; and an inconsistent chart of accounts undermines reporting and comparability. CFOs need an objective assessment of the finance function and a practical roadmap to the target organization.

The offering sits within the Transform phase of the Cleveland Clinic Healthcare Financial Advisory Lifecycle, which answers the client question "Do we have the right finance organization?" It is typically requested by health systems, academic medical centers and organizations undergoing growth or restructuring.

02 CLEVELAND CLINIC VALUE PROPOSITION

Cleveland Clinic has experience designing and running a finance organization at enterprise scale, including governance, shared services, reporting architecture and account structures that support a multi-entity system. Our advisors bring that operating perspective to finance organization design and transformation.

Clients benefit from recommendations that are practical to implement, sequenced realistically, and informed by IEM's work supporting health systems internationally.

03 KEY DELIVERABLES

- Finance organizational assessment of structure, capabilities, roles and capability gaps
- Finance process maps, pain point analysis and future-state process design
- Future-state finance operating model blueprint
- Finance governance model with decision rights, delegation of authority, committee charters and policy framework
- Shared services blueprint with service catalog, governance, staffing and cost allocation approach
- Finance operating calendar with reporting and planning cycles, fiscal year conventions and deadlines
- Chart of accounts design with cost center and natural account definitions and a maintenance model
- Phased finance transformation roadmap with change management approach and executive presentation

04 DELIVERY MODEL

On-site / Hybrid / Workshop-based

On-site discovery, including leadership interviews and a review of current finance structures, opens the engagement. Future-state design workshops follow, supported by virtual working sessions between visits. The roadmap is reviewed and refined with executive leadership in a final on-site session.

05 TYPICAL DURATION

4 to 10 weeks per module; 8 to 20 weeks for a full transformation

Typically delivered in three phases: current-state assessment; future-state design; roadmap development and executive alignment. Focused modules such as an organizational assessment, governance model or finance calendar run 4 to 10 weeks; a full transformation roadmap with chart of accounts redesign runs 8 to 20 weeks. Longer engagements may add implementation support.

06 RESOURCE REQUIREMENTS

07 EXPECTED OUTCOMES

- Agreed vision for the future finance organization, with an objective view of capability gaps
- Documented future-state processes that reduce manual effort and cycle time
- Clear finance decision rights, accountability and a stronger control environment
- Reduced duplication and improved accountability across entities through governed shared services
- Consistent chart of accounts and predictable reporting and planning cycles across the enterprise

- Phased, fundable roadmap to a scalable finance organization
