Medical Education & Faculty Development

Expert review of medical school curricula and practical faculty development in teaching, learner assessment and curriculum design.

CATEGORY	TYPICAL DURATION	DELIVERY MODEL	PRODUCT OWNER
Education & Training	Half-day workshops to 3 to 6 month reviews	On-site, Virtual, Workshop-based	Cleveland Clinic program hosts Center for International Medical Education

01 CLIENT NEED

Medical schools and teaching hospitals building or strengthening their education programs need an outside, expert view of their curriculum and practical development for the clinicians who teach. Best fit for medical school deans seeking a high-level curriculum review, and for clinical educators or faculty teams seeking development in teaching, assessment, curriculum design or clinical education.

Intended audience: Medical school deans, clinicians and educators.

02 CLEVELAND CLINIC VALUE PROPOSITION

Cleveland Clinic's Center for International Medical Education provides a high-level advisory review of medical curricula, identifying strengths, gaps and improvement considerations, with individual syllabus review possible given extra time and resources.

Cleveland Clinic Abu Dhabi complements this with customizable faculty-development workshops on teaching skills, learner assessment, curriculum design and clinical education for clinicians and educators.

03 KEY DELIVERABLES

- Undergraduate Medical Curriculum Review. High-level advisory review of curriculum strengths, gaps and improvement considerations
- Individual syllabus review (optional), given extra time and resources

- CCAD Faculty Development. Half-day to multi-day workshops on teaching skills, learner assessment, curriculum design and clinical education
- ACGME Assessment Hub Training, offered twice yearly at Cleveland Clinic Abu Dhabi

04 DELIVERY MODEL
