Education

Caregiver Development, Culture & Patient Experience

Onboarding, communication, coaching, high-reliability and patient-experience programs that build a shared culture of service, safety and relationship-centered care.

Category	Typical duration	Delivery model
Education & Training	5 hours to about 7 months, by program	On-site, Virtual, Self-paced Online

Client need

Growing organizations and new hospitals need caregivers and leaders who share the same purpose, values and behaviors, and the internal capability to sustain them.

Questions we help you answer

- How do we build a shared culture of service and safety across our workforce?
- How do we strengthen communication between caregivers and patients?
- How do we make new behaviors last after training ends?

What you receive

- **Foundational Skills Onboarding.** Patient-facing caregivers; 4 days, locally led, plus a Leader Supplement
- **Coach Training + Program Development.** Coaching champions; about 7 months
- **High Reliability Organization (HRO) eLearnings.** All caregivers and leaders; 5 hours
- **The R.E.D.E. Model.** Open to all; 3-day communication course with a CME option
- **Patient Experience Leaders Forum.** Open to all; 3-day program

How it works

Format: In-person courses, local facilitation, virtual coaching and self-paced eLearning

Expected outcomes

- ✓ Shared alignment with mission, values and behaviors
- ✓ Practical communication skills used daily
- ✓ Internal capability to sustain culture change
