Finance

Large-Scale Healthcare Development Financial Advisory

A senior-led advisory offering that helps governments, investors and health systems build the financial strategy for a major healthcare development or partnership.

Category	Typical duration	Delivery model
Finance Advisory: Premium International (senior-led support across all stages)	8 to 24 weeks	On-site, Hybrid, Workshop-based

Client need

Greenfield hospitals, academic medical centers, networks and national programs involve large capital, many stakeholders and long ramps to sustainability. This Premium International offering draws on every stage of Cleveland Clinic's finance advisory lifecycle.

Questions we help you answer

- What will this development cost to build and run, and when will it be sustainable?
- How should sites, services and phasing fit together?
- What will investors and the board need to see before they commit?

What you receive

Selected to match the program at scoping:

- **Integrated pro forma:** startup costs, capital plan and operating ramp-up
- **Network or enterprise model:** multi-site phasing, service mix and scenarios
- **Academic medical center or partnership strategy:** funding, risks and negotiation materials
- **Board and investor business case:** with a governance and reporting roadmap

How it works

1. **Baseline (2 to 4 weeks):** plans, data and priorities, with a site visit
2. **Modeling and strategy (4 to 16 weeks):** models and scenarios with the client
3. **Decision support (2 to 4 weeks):** board and investor readouts

Partnership strategies run 8 to 16 weeks; greenfield and national programs 12 to 24 weeks.

Expected outcomes

- ✓ Investors commit on a tested business case
- ✓ Sites, services and partners planned as one strategy
- ✓ A stronger position in partner negotiations
