Safety, Quality, and Patient Experience (SQPE)

SQPE One-Pager Maturity Guide Library

Thirty-five concise Cleveland Clinic guides that show what mature practice looks like for key safety, quality, nursing and improvement topics.

Category	Typical duration	Delivery model
Clinical Advisory	Available throughout the membership term	Virtual

Client need

Frontline leaders and improvement teams need clear, practical guidance on what mature practice looks like, but lengthy policies are hard to use day to day. Requests typically come from quality, infection prevention, nursing and operations leaders.

Questions we help you answer

- What does mature practice look like for infection prevention, medication safety and other priorities?
- How do our units compare with Cleveland Clinic practice?
- What practical steps should our teams take next?

What you receive

- **Clinical outcome guides:** CLABSI, CAUTI, C. diff, MRSA, mortality, sepsis, falls and pressure injuries
- **Medication safety guides:** reconciliation, labeling, and high-risk and look-alike/sound-alike medications
- **Patient safety guides:** event reporting, patient identification and Universal Protocol
- **Infection prevention guides:** isolation, PPE, disinfection and sterile processing
- **Nursing and professional practice guides:** shared governance, plan of care visits and peer review
- **Governance and readiness guides:** safety and quality governance, accreditation and policy management
- **Improvement guides:** CCIM, visual management, tiered huddles, problem-solving and change management
- **Leadership guides:** leader rounding and HEART Chats

How it works

Guides are provided digitally for member teams to use on demand, and Cleveland Clinic updates them as practices evolve.

Expected outcomes

- ✓ A clear picture of mature practice for each topic
- ✓ Faster self-assessment against Cleveland Clinic practice
- ✓ Consistent improvement approaches that support priority metrics
