Education

Clinical Observerships & Visiting Programs

Observation-based visiting programs that give physicians, nurses, pharmacists and trainees first-hand exposure to Cleveland Clinic practice in the United States and Abu Dhabi.

Category	Typical duration	Delivery model
Education & Training	1 to 4 weeks, by program	On-site, Hybrid

Client need

Clinicians, leaders and trainees often want to see how Cleveland Clinic delivers care before adapting its practices at home. Participation is application-based and limited by specialty availability.

Questions we help you answer

- Where can our physicians, nurses and pharmacists see Cleveland Clinic practice first-hand?
- Which program fits each professional group and learning goal?
- What does each program involve, and who is eligible?

What you receive

- **International Visitor Program: Observership.** Medical students; 4 weeks in the United States
- **International Visitor Program: Preceptorship.** Residents, fellows and physicians; 1 to 2 weeks, one-on-one
- **Visiting Nurse Scholars.** Nurses with 3+ years of experience; 1 to 4 weeks of mentorship and shadowing
- **Pharmacy Ambassador Program.** Pharmacy professionals; 1 to 2 weeks
- **LATAM Ortho CCF Observership.** Latin American orthopaedic trainees; 4 weeks at Cleveland Clinic Florida
- **CCAD Observership.** Students, trainees and clinicians; 2 to 4 weeks at Cleveland Clinic Abu Dhabi

How it works

Format: In-person observation and shadowing; fixed structure except the Pharmacy Ambassador Program

Expected outcomes

- ✓ First-hand exposure to Cleveland Clinic care models
- ✓ Transferable skills participants apply at home
- ✓ Long-term capacity building at the home institution
