Data, Analytics & Business Intelligence Advisory

Focused coaching to build a defensible measure set, trusted metric definitions and the data foundations leaders need to run the hospital.

CATEGORY	TYPICAL DURATION	DELIVERY MODEL
Digital & Technology Advisory	About 6 months	Virtual

01 CLIENT NEED

Hospitals often start with hundreds of candidate indicators but no focused first-year measure set, certified definitions, data governance or clear analytics architecture. Requests typically follow a new opening, accreditation goals such as JCI, or conflicting numbers across teams.

02 WHY CLEVELAND CLINIC

Cleveland Clinic's Enterprise Data & Analytics leaders run data strategy, governance and analytics for one of the world's leading health systems. They coach client teams through the decisions that matter most and are hardest to reverse, using real Cleveland Clinic examples.

03 WHAT YOU RECEIVE

- Virtual advisory session series (typically up to six sessions)
- Tiered measure set recommendations (pre-opening, first year, full operations)
- Certified metric definitions, ownership and versioning guidance
- Minimum viable data governance structure
- Architecture, integration and analytics team design guidance
- Written feedback on client drafts, with session notes and action items

04 HOW IT WORKS

Virtual | About 6 months

Six 60-minute virtual coaching sessions about every 3 to 4 weeks, led by Cleveland Clinic analytics leaders, with one round of light written review. International & Emerging Markets schedules sessions and issues notes.

05 WHAT WE NEED FROM YOU

- Executive sponsor (CEO or CFO)
- Head of Data Analytics and analytics team
- Draft KPI framework, metric definitions and integration plans
- Quality, finance and IT representatives for relevant sessions

06 EXPECTED OUTCOMES

- A focused, defensible first-year measure set
- Certified metric definitions with clear ownership
- Data governance in place before go-live
- Architecture decisions that avoid costly rework
