Education & Training	Single session to multi-phase engagement	On-site, Workshop-based

01 CLIENT NEED

Professionals and teams need to practice procedures, teamwork and life support safely, and organizations building their own simulation capability need help with curriculum, systems testing, accreditation readiness and faculty development.

02 WHY CLEVELAND CLINIC

Cleveland Clinic's Simulation and Advanced Skills Center reports 48,000 learner encounters and more than 2,500 courses a year, from manikins and VR to standardized patients and in situ training. Cleveland Clinic Abu Dhabi offers specialty simulation training in the region.

03 WHAT YOU RECEIVE

- Simulation courses in procedural skills, team scenarios and life support, by specialty
- Workforce upskilling and in situ training at Cleveland Clinic or the client site
- Systems testing of clinical systems, spaces and workflows
- Simulation program design, accreditation readiness and train-the-trainer support
- **CCAD Simulation-Based Training.** Licensed professionals; single-session to multi-day training in Abu Dhabi

04 HOW IT WORKS

On-site / Workshop-based | Single session to multi-phase engagement

Format: In-person simulation-based training and advisory

Location: Cleveland Clinic, Cleveland Clinic Abu Dhabi or client site
