CC Connected SQPE Core Program

A structured, year-round safety, quality and patient experience program that benchmarks your organization against Cleveland Clinic standards and keeps improvement on track.

CATEGORY	TYPICAL DURATION	DELIVERY MODEL
Clinical Advisory	12-month cycle, renewed annually	On-site, Hybrid

01 CLIENT NEED

Hospitals joining a clinical affiliation need more than a one-time review: a shared baseline, reliable metric definitions and a regular cadence that keeps safety, quality and patient experience (SQPE) priorities visible. This program is the foundation required of all Cleveland Clinic Connected members, typically sponsored by the CEO, CMO or CNO.

02 WHY CLEVELAND CLINIC

Cleveland Clinic brings mature SQPE infrastructure from decades of running a large, multi-hospital health system, and its experts assess, review and coach members on an ongoing basis rather than delivering a single static report.

03 WHAT YOU RECEIVE

- Initial on-site organizational SQPE assessment and written report
- Review of priority SQPE metric definitions with the member team
- Data collection and quarterly metric performance submission process
- Quarterly SQPE review meetings with Cleveland Clinic experts
- Annual SQPE reassessment and written report with updated recommendations

04 HOW IT WORKS

On-site / Hybrid | 12-month cycle, renewed annually

The program begins with an on-site assessment by the Cleveland Clinic SQPE team, followed by quarterly review meetings built around the member's submitted metric data. An annual reassessment measures progress and resets priorities for the following year.

Initial on-site assessment within the first [X] months of membership; quarterly reviews throughout the year; annual assessment and report at the close of each membership year.

05 WHAT WE NEED FROM YOU

- Executive sponsor (CEO, CMO or CNO)
- Quality and patient safety lead
- Data owner responsible for quarterly metric submission
- Access to policies, data and clinical areas during the on-site assessment

06 EXPECTED OUTCOMES

- A documented SQPE baseline compared with Cleveland Clinic standards
- Standardized definitions and reliable quarterly data for priority metrics
- A prioritized, year-over-year improvement plan
- Measurable progress on the 3 to 5 priority measures each member selects, against targets the member sets
