SQPE One-Pager Maturity Guide Library

Thirty-five concise Cleveland Clinic guides that show what mature practice looks like for key safety, quality, nursing and improvement topics.

CATEGORY	TYPICAL DURATION	DELIVERY MODEL
Clinical Advisory	Available throughout the membership term	Virtual

01 CLIENT NEED

Frontline leaders and improvement teams need clear, practical guidance on what mature practice looks like, but lengthy policies are hard to use day to day. Requests typically come from quality, infection prevention, nursing and operations leaders.

02 WHY CLEVELAND CLINIC

Each one-pager distills how Cleveland Clinic approaches a metric or process into a single page of key practices and maturity levels, tied to members' SQPE priorities.

03 WHAT YOU RECEIVE

- **Clinical outcome guides: CLABSI, CAUTI, C.** diff, MRSA, mortality, sepsis, falls and pressure injuries
- Medication safety guides: reconciliation, labeling, and high-risk and look-alike/sound-alike medications
- Patient safety and infection prevention guides: event reporting, isolation, PPE, disinfection, sterile processing, patient identification and Universal Protocol
- Nursing and professional practice guides: shared governance, professional practice, plan of care visits and peer review (OPPE, FPPE)
- Governance and readiness guides: safety and quality governance, accreditation readiness and policy management
- Improvement and leadership guides: CCIM, visual management, tiered huddles, problem-solving, change management, leader rounding and HEART Chats

04 HOW IT WORKS

Virtual | Available throughout the membership term

Guides are provided digitally for member teams to use on demand, and Cleveland Clinic updates them as practices evolve.

05 WHAT WE NEED FROM YOU

- Quality, nursing and operations leaders to apply the guides
- Unit and department managers
- Internal process to share guides with frontline teams

06 EXPECTED OUTCOMES

- A clear picture of mature practice for each topic
- Faster self-assessment against Cleveland Clinic practice
- Consistent improvement approaches that support priority metrics
